

Actis Mobile Videoconference Unit (MVU Series)

Mobile video conferencing solution for greater flexibility and ROI

Video conferencing is a powerful business tool. But as the applications and demands of video conferencing expand, organisations often need more flexibility than fixed video conferencing installations can offer.

How flexible is flexible?

Imagine a videoconference system that can be used from any room in your office – from the most spacious boardroom to the smallest of meeting rooms. Imagine a system with standards compliant, open architecture. Imagine a system that contains all the components for an exceptional High-Definition experience.

Actis MVU Series provide all this and more...

High-definition: Upto HD video quality (720p@30/60 fps, 1080p@30 fps, 16:9 format)

Self-contained: Integrated display, camera, codec, mic and speakers

Mobile Trolley: Can be moved from room-to-room on castors without disassembly

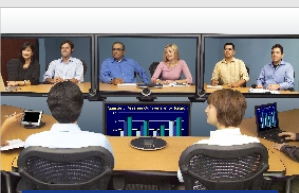

Easy setup: Pre-configured for VC calling in minutes with ISDN and IP support

Eye contact: Ideal Screen height enables excellent eye contact between participants

Compact, mobile, self-sufficient HD video conferencing system

Use the Actis Mobile Videoconference Unit to improve communication and collaboration across your organisation

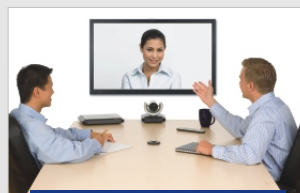

Meetings of the Board

Sales Team Meetings

Customer Interactions

Recruitment Interviews

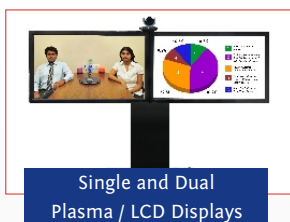

Cross-location Training

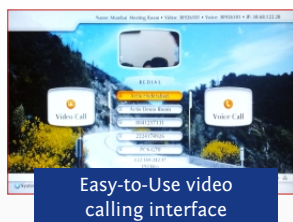

Key Features

The Actis MVU Series (MVU - 3000, MVU - 2000, MVU - 1000 and MVU - Custom) are self-sufficient integrated videoconferencing systems that are internally pre-wired and mounted on a trolley with castors to make them convenient to move. Most importantly every component required for video conferencing is built into a single unit which delivers the following benefits:

- A Quality:** Full support for HD quality video (upto 1080p @ 30 fps) and HD audio*
- B Flexibility:** Maximum mobility, point-to-point and multi-point capability
- C Collaboration:** Realtime sharing of your PC screen at native resolution*
- D Ease-of-Use:** Powerful GUI interface and full-function remote for complete control

Single and Dual Plasma / LCD Displays

Easy-to-Use video calling interface

Excellent eye contact due to ideal screen height

Simple integrated connector panel

Full function remote controller

* Available in select models of the Actis MVU Series

At the heart of the Actis MVU Series is cutting-edge technology from the pioneers of HD videoconferencing – LifeSize Communications, Sony Corporation and Polycom
